Extra Dessert #6: Auto/Remote Control, Foreign Ops, Emission Rules

Numbers to memorize: bandwidth limits, modulation index limit, spurious emission limit, control-link timeout, and the rules for working DX from another country.

Group E1C · 12 pool questions · Self-study reference · Practice exams at eham.net/exams

Numbers To Memorize

Item	Value	Q
Max data emission bandwidth on 60 m	**2.8 kHz**	E1C01
Highest modulation index for angle modulation below 29.0 MHz at the highest modulating frequency	**1.0**	E1C09
Max mean power for a spurious emission below 30 MHz (relative to the fundamental)	**−43 dB**	E1C10
Max remotely-controlled transmit time if the control link fails	**3 minutes**	E1C08
Wait after UTC notification before operating 2200 m / 630 m	**30 days**, provided you have NOT been told you are within 1 km of a PLC system	E1C03
Phone emissions permitted in the 630 m band	**The entire band**	E1C12

2200 m / 630 m Notification

Question	Answer	Q
Notification required before transmitting	**Inform the Utilities Technology Council (UTC) of your call sign and station coordinates**	E1C07

Foreign Operation

Topic	Answer	Q
What is an IARP?	**A permit that allows US amateurs to operate in certain countries of the Americas**	E1C04
CEPT requirement when operating in foreign countries	**You must have a copy of FCC Public Notice DA 16-1048**	E1C06
Reciprocal arrangement covering many European countries (both directions)	**CEPT**	E1C11
Communications to foreign amateurs	Limited to **those incidental to the purpose of the amateur service and remarks of a personal nature**	E1C02

Third-Party Traffic Under Automatic Control

Question	Answer	Q
When may a station transmit third-party communications while being automatically controlled?	**Only when transmitting RTTY or data emissions**	E1C05

Dessert 6 Question Bank (E1C)

E1C01. What is the maximum bandwidth for a data emission on 60 meters?
A. 60 Hz.
B. 170 Hz.
C. 1.5 kHz.
D. 2.8 kHz.

E1C02. Which of the following apply to communications transmitted to amateur stations in foreign countries?
A. Third party traffic must be limited to that intended for the exclusive use of government and non-Government Organization (NGOs) involved in emergency relief activities.
B. All transmissions must be in English.
C. Communications must be limited to those incidental to the purpose of the amateur service and remarks of a personal nature.
D. All these choices are correct.

E1C03. How long must an operator wait after filing a notification with the Utilities Technology Council (UTC) before operating on the 2200-meter or 630-meter band?
A. Operators must not operate until approval is received.
B. Operators may operate after 30 days, providing they have not been told that their station is within 1 kilometer of PLC systems using those frequencies.
C. Operators may not operate until a test signal has been transmitted in coordination with the local power company.
D. Operations may commence immediately, and may continue unless interference is reported by the UTC.

E1C04. What is an IARP?
A. A permit that allows US amateurs to operate in certain countries of the Americas.
B. The internal amateur radio practices policy of the FCC.
C. An indication of increased antenna reflected power.
D. A forecast of intermittent aurora radio propagation.

E1C05. Under what situation may a station transmit third party communications while being automatically controlled?
A. Never.
B. Only when transmitting RTTY or data emissions.
C. Only when transmitting SSB or CW.
D. On any mode approved by the National Telecommunication and Information Administration.

E1C06. Which of the following is required in order to operate in accordance with CEPT rules in foreign countries where permitted?
A. You must identify in the official language of the country in which you are operating.
B. The US embassy must approve of your operation.
C. You must have a copy of FCC Public Notice DA 16-1048.
D. You must append “/CEPT” to your call sign.

E1C07. What notifications must be given before transmitting on the 630- or 2200-meter bands?
A. A special endorsement must be requested from the FCC.
B. An environmental impact statement must be filed with the Department of the Interior.
C. Operators must inform the FAA of their intent to operate, giving their call sign and distance to the nearest runway.
D. Operators must inform the Utilities Technology Council (UTC) of their call sign and coordinates of the station.

E1C08. What is the maximum permissible duration of a remotely controlled station’s transmissions if its control link malfunctions?
A. 30 seconds.
B. 3 minutes.
C. 5 minutes.
D. 10 minutes.

E1C09. What is the highest modulation index permitted at the highest modulation frequency for angle modulation below 29.0 MHz?
A. 0.5.
B. 1.0.
C. 2.0.
D. 3.0.

E1C10. What is the maximum mean power level for a spurious emission below 30 MHz with respect to the fundamental emission?
A. −43 dB.
B. −53 dB.
C. −63 dB.
D. −73 dB.

E1C11. Which of the following operating arrangements allows an FCC-licensed US citizen to operate in many European countries, and amateurs from many European countries to operate in the US?
A. CEPT.
B. IARP.
C. ITU reciprocal license.
D. All these choices are correct.

E1C12. In what portion of the 630-meter band are phone emissions permitted?
A. None.
B. Only the top 3 kHz.
C. Only the bottom 3 kHz.
D. The entire band.

Answer Key

E1C01: D	E1C02: C	E1C03: B	E1C04: A
E1C05: B	E1C06: C	E1C07: D	E1C08: B
E1C09: B	E1C10: A	E1C11: A	E1C12: D
